

Resolution 3 Portable Parcel Weigh Dimensioner

- Industry-leading API integration
- Plug & go, no PC or software required
- 15" colour touchscreen
- +0.5cm accuracy
- AI powered 3D image processing

Dimension cubic or irregular shaped objects on the go

Technology: Artificial Intelligence powered 3D image processing

Measurable Objects: Cubic or irregular objects

Integration Interface: Via Web Service or download an Excel File over Ethernet, Wi-Fi or RS232

Ports: Ethernet, USB, RS232, HDMI

Product Output: Width, Length, Height, Weight, Dimensional Weight, Real Volume, Barcode/SKU, 2 Custom Data Fields

Operating Voltage: 12VDC/100-240VAC

Average Current: 4A

Operating Temperature: 5 - 40C

Housing: Aluminium and steel

What does Resolution 3 include?

- Resolution 1 - the very best dimensioning camera available
- 70cm x 80cm weighing scale
- 15" colour touchscreen
- Wireless 2D handheld scanner to enter SKUs or product details
- Wifi and Ethernet connectivity (download measurements & images as well as control the camera through Google Chrome (or another internet browser).
- Industry leading API
- (Optional) Label printer to print labels
- (Optional) Battery power for 25 hour operation

The ultimate portable parcel weigh dimensioner

Resolution 3 is the industry-leading dimensioning and weighing solution for calculating parcel dimensions, weight and volumetric weight in a fraction of a second.

With a portable trolley and an optional battery, Resolution 3 can be moved quickly and easily to any location, making it ideal for fulfilment warehouses that need a dimensioner on the go.
