

CH\_dosage

ATEX area dosing system

Examples of installations and dosing machines for ATEX zones 1 & 21, carried out by our specialised partners.

**The best solution  
for advanced industrial  
applications**

## Areas of use

- RAW MATERIAL PROCESSING COMPANIES
- POWDER AND FLOUR STORAGE WAREHOUSES
- CHEMICAL INDUSTRY
- PHARMACEUTICAL INDUSTRY

## Our solutions

- Dini Argeo offers components and weighing solutions, ATEX-certified for areas at risk of explosion 0 and 20, 1 and 21, 2 and 22. Each system for weighing in ATEX zones is custom designed, depending on the classification of the explosive environment in which it will be installed.
- The Dini Argeo ATEX weighing terminals are designed for digital interfacing with automation systems, for dosing, filling and emptying control.

## Our network of specialised partners

- The solutions shown in the examples have been carried out by our network of specialised partners worldwide.

We thank the companies that own the photographic material for having granted permission for its use, as well as for their competence and professionalism.

If you are interested in receiving more information, do not hesitate to contact us: we will be able to advise you relating to the solution you are looking for, together with our nearest local partner.
